Dear Cable User,

2006

JMLCable provides cabling as its core specialty and can manufacturer, ship and install cables that satisfy your complete interface cabling needs. When dealing direct with JMLCable, you communicate with industry experts, having pure and extensive firsthand knowledge of all types of fiber/copper cabling and connection schemes.

JMLCable is your fast track to connecting the dots, with just in time design & build capabilities providing last mile, campus, peripheral device and structural building infrastructures for industrial, commercial, or residential environments.

JMLCable is a member of BICSI(Building Industry Consultant Services International) and has a BICSI accredited RCDD(Registered Communications Distribution Designer) on staff . BICSI is an international organization whose primary objective is to enhance the reputation and skills of companies and individuals employed in the telecommunications industry. This is done by ensuring that current and developing standards are maintained continually. A BICSI accredited company or individual is best placed to offer the enterprise real time solutions that will meet performance criteria for today and tomorrow. This is done through accredited training and continual regard to developing technologies. RCDD's are a professional designation of superior design expertise in the implementation and integration of telecommunications and data communications transport systems, and related infrastructure.

In terms of sheer sweep of technological advancement the 30 years since JMLCable began providing custom, state-of-the-art computer interface cables represents an era of unparalleled progress.

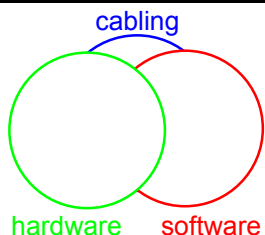

JMLCable produces over 20,000 custom products which we provide today for a constantly expanding base of customers of every size, on six continents.

JMLCable has been presented numerous Supplier Recognition Awards for its excellence in supplying quality products on-time with superior service.

JMLCable Quality is above industry standards in testing procedures, we fully test each cable twice for resistance and capacitance to ensure connection reliability. Labels from JML come with great detail with a unique serial # which gives it an identity that symbolizes and keeps track of the quality and workmanship that went into making it. This JMLCable quality instilled confidence gives the installer/ integrator quicker and more hassle free installations.

The JMLCable brand includes any computer, network, power, audio, or video cable for home, small office, industrial, or corporate use. Including Networking products like, patch panels, Category 5e Enhanced/ Cat 6 jacks, wall plates, free standing/ wall mounted racks, server enclosures, power strips, power cords, and replacement power supplies for laptops and other AC/ DC uses. Some more products that are obtainable through JML are complete workstation systems loaded with just plain XP, flat panels, high end video cards, monitors, cases, keyboards, trackballs, mouse, memory, hard drives, etc.

NTI - Keyboard , Video, Mouse extensions and switches with JMLCable brand KVM cables.

#4) Jros3 - JMLCable Ring of Support for your Safety and Security - The Jros3 is a complete Technical Services Help Desk that has an intelligent overlapping **Ring of Support**. Providing ongoing situational Cabling, Hardware, and Software **Support for your Safety and Security**.

The Jros3 Team surrounds each Network operation with the 3 core facets of Networking, Cabling, Hardware and Software. With a concept that has shown great success, Jros3 has proven that they can get the job done better then the normal unilateral approach, that is using 1 company or individual help desk support.

The concept of the Jros3 was designed to include a group of trusted professional corporations and individuals. The Jros3 allows this trusted group to focus with greater intensity on thier core Help Desk responsibility, and with the sum of these parts working together your Network will be maintained at a higher than normal intensity level.

Different members of the Jros3 Team are assigned as your Primary Support Provider(PSP) and others as your Secondary Support Providers(SSP), this gives you redundant and overlapping providers covering your Help Desk needs.

JMLCable provides cabling as its core specialty, as well as the initiative to create the Jros3 concept to serve its customers with the best service available.

The JMLCable Team led by John Sr and John Jr has 50+ combined years of practical experience in this industry and make it available to you literally 24/7. Anytime you need a cable or just advice the JMLCable Team will do it's best to row in the right direction towards helping you.

Make the right connection with JMLCable,

John McLaughlin Jr - RCDD
